## CHAIR SEATING

Rush seating – priced per square inch	- 55p for standard coils - 65p for fine coils - 75p for very fine coils
Danish cord	- 40p per square inch for standard pattern - 60p per square inch for rush pattern – wishbone chairs
Seagrass **	- 40p per square inch for straight line patterns
<i>**The quality of seagrass I am able to find at the moment precludes me from doing the rush pattern. There are plenty of other patterns to choose from.</i>	
Chair cane	- from £1.00 per hole in the wood for standard six way pattern , incrementally increasing with the amount of holes and any curving of the frame

It is extremely difficult to make small repairs to woven seats that will keep integrity to the strength and they usually will have to be completely re-woven. I can repair some items – please send a picture.
